

I want to invest in cryptos

Its is going crazy people are making so much money buying it

Fact : Most retail people invest at peaks and eventually end up loosing

You should define your moto and make plan accordingly

Short term

Mostly done through reputed **exchanges**

Most people trade with leverage

Higher risk to reward

More emotionally challenging

Requires more amount time and monitoring

Good for people who can spend some time daily

Things you must do

- Do not take excessive leverage
- Always put stop loss
- Learn chart analysis
- Be emotionally strong
- Create a trading plan
- Trade only with clear trends
- You don't own any coins

Long term

Mostly you buy Coins p2p or through reputed **exchanges**

You hold coins in hardware or cold **wallets**

You do not panic sell

Your vision is at least few years

You understand market and u have invested to create wealth

Things to remember

- Do not share your wallet private key
- Wallets can be recovered if u have your private key
- Do through research on coins you are buying for long term
- Use DCA to buy bitcoin
